

CONTRACT PRODUCTS

YOUR MANUFACTURING PARTNER

Efficient, cost-effective product solutions. Match your product innovation with our manufacturing innovation. We can create a comprehensive product manufacturing process that works for you. We'll work with you to analyze your needs, obstacles and objectives. By determining how each step of your manufacturing process can be refined for maximum efficiency, we can streamline your efforts into a system that will reduce costs while increasing productivity. And we can even implement the system at our facility in Franklin, Wisconsin. **Our capabilities include the following:**

Design

Your design with our input. We can even assist you in contracting the design with our design partner.

Engineering

MANUFACTURING ENGINEERING - How to do it.

PROCESS ENGINEERING - Where to do it.

QUALITY ENGINEERING - How to measure it.

TOOLING ENGINEERING - With what to do it.

Purchasing

Including offshore purchasing of plastics, die casts and other components.

Manufacturing

Short-run manufacturing process is done all in-house.

Assembly

We'll include your stickers or logos and use guides in the box.

Shipping

To you or your customers when you ask for it.

An Ideal location

We'll even set up your manufacturing process in our own 74,000 square foot facility centrally located near Milwaukee in Franklin, Wisconsin. We can train our employees to manufacture your product in a cost-effective manner that produces quality results.

Proven success

We've successfully implemented effective product manufacturing processes in our Franklin, Wisconsin facility. Take a look at our Sherpa Snowshoe Company case study to find out more about how we can help you efficiently manufacture your products.
