

FACILITIES

Franklin, Wisconsin Facility

Our 74,000 square foot facility, located in Franklin, Wisconsin, features the latest technologies in stamping, machining, assembly and finishing, including lasers and laser turrets, stamping presses capable of stamping up to 250 tons, and EDM machines. Our batch powder system is also located here. This facility has a well-developed, four-step product inspection plan and is home to the company's KanBan inventory management system. All corporate and administrative employees are here.
